

Trustee attendance at meetings 2025-26

Executive summary

The Aspire Learning Trust Full Board met six times during the 2025-26 academic year as part of its scheduled programme of business. Attendance is calculated against meetings held during an individual's period of office. Trustees appointed or resigning during the year are assessed only against meetings they were eligible to attend. Attendance at committee meetings is also reported for trustees serving on the Resources Committee, Risk & Audit Committee and Standards Committee.

Attendance figures relate to scheduled Trust Board and committee meetings included within the Trust's annual programme of business. Additional extraordinary meetings, panels and other ad hoc governance meetings were held during the year as required and are not included within the attendance figures reported below

Trustees who joined or left the Board during the academic year have their attendance calculated only against meetings held during their period of office. GIAS records have been used to determine statutory periods of office where applicable.
